

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 28 December 1966

1. (Unclassified - LLM) Delivered a letter responding to Congressman Robert Kastenmeier (D., Wis.) on behalf of [redacted] who is now in Viet Nam and who is interested in Agency employment. Mr. Kaz Oshiki, Administrative Assistant to the Congressman, said he fully appreciated our position of not wanting to have Agency application forms submitted to Viet Nam at this time. I also enjoyed a cup of coffee with the Congressman and had a pleasant and casual conversation with him.

2. (Unclassified - GLC) Richard Cook, on the staff of the House Banking and Currency Committee, called concerning the interest of Representative Ashley and his Subcommittee on International Trade in printing in one of its reports ORR's study "USSR: About to Enter the Automotive Age?" I told Mr. Cook I anticipated no problems in their printing this with attribution to the Agency. Mr. Cook did mention the fact that the Subcommittee would like to have its report reflect the recent agreement between the Soviet Union and Renault. We discussed the possibility of our providing them with a blind paragraph on this which might be used as part of the staff's research efforts. ORR is preparing such a paper and we will be in touch with Cook again within the next few days.
